# Herb tea for relaxation

VIENNA CAPITAL JAPAN

## Orange Herb Tea

## VCJ Events

### 8Apr2008

VCJ donated 5% of income for March 2008 to [World Vision Japan](#). The fund will be used to support a girl in Malawi and her family (4 brothers, 1 sister and her parents). We sincerely appreciate all our clients' support for placing their highly valued business with us.

### 22Apr2008

We started the application process for Green Power certification as a part of our CSR (corporate social responsibility) commitment.

### 15May2008

Mr. Oliver Gomm from Man Investments will visit VCJ

We are serving herb teas during our investment consultations in order to make our clients relax. Recently, people have become very busy and we would like them to unwind during our discussion.

I would like to introduce a herb tea that you can enjoy at home.

In Japanese, we have a word "gogatsu-byo (May-Depression)". Some people have difficulty in adjusting to the new environment which starts in April each year and develop a syndrome similar to depression. This condition was originally seen in new university students or fresh employment recruits, but the word is not a medical term nor has it any clear definition.

It is said that to avoid May-Depression, one should stay away from stress.

Herb tea is known to have both pharmacological effects by drinking and a moderate

therapy effect from the aroma. Please try some herb tea to reduce your tension.

In this newsletter I would like to introduce one recipe of tea I usually drink when I feel little down.

Herb tea to make you feel uplifted.

1. One spoon each of orange peel, orange blossom and lemon grass
2. Prepare a warm tea cup and tea pot in advance.
3. Put herbs into the teapot
4. Pour hot water into teapot
5. Let it brew for 3 to 5 minutes
6. Serve tea with a tea strainer

# How to fold a pocket square

“A pocket square is just for parties”, said some. However, it can be used anytime depending on how you fold it. Here are three common ways of folding a pocket square:

## ● The TV Fold

1. Position the folded square in a diamond shape. Pull the bottom corner up to meet the top corner.
2. Fold the left corner over.
3. Fold the right corner over.
4. Fold the top corner down to create a square, and flip it around to conceal the diagonal folds, and put it in.

## ● The Four Point

1. Positioned in a diamond shape and fold the bottom corner up to meet the top corner.
2. Fold the bottom right-hand corner up to fall just to the left of the top corner.
3. Now, fold the bottom left-hand corner up to the right of the top corner.
4. Turn the square around and place in the pocket.

## ● The Puff

1. Pinch it in the centre and raise it up, letting the points hang down.
2. Use the space between your thumb and forefinger to cinch the hanging square at its midway point.
3. Fold the hanging points up.
4. Make it upside down and stuff it in.

## Open the door to offshore investing with URP by Hansard International

**W**hile offshore accounts have a number of attractive funds, some people may think the minimum amount of investment is high and not affordable. However, retirement plans provided by offshore fund companies allow you to access these great products

with much smaller amounts than you may think.

URP(Universal Retirement Programme) by Hansard International is one of them. Hansard is an offshore life insurance and investment company based in Isle of Man which won the Offshore Fund Award in 2004 as well as Best Internet & Technology Provider award

in 2006 for its sophisticated online system.

Major advantages of the plan include; 1. you can access high-class offshore funds with a small deposit 2, After a certain period of time, Hansard offer an attractive bonus which purchase additional fund units 3 You can dollar cost

average your investment and can minimize currency exchange risk 4 There are up to 20 funds to select at inception with a minimum allocation rate of 1.0% per fund . 5 Under the Isle of Man Policyholder Protection Law (1991) up to 90% of fund value will be guaranteed in the event of company liquidation.

Also, URP has the widest currency choice amongst competitors which includes JPY.

Premium payment can be made via credit card such as VISA and Mastercard.

Account holders can easily access their online system

to check their updated performance.

Meanwhile, you should be aware of the following; 1. There will be 7% of bid/offer spread 2. Charging structure is not straightforward. You need to consult with your advisor to ensure you understand all the fees charged .3. Early encashment or surrender during the initial period is subject to a penalty, which could decrease your plan substantially

To summarize, if you would like to make regular payments consistently over 10 years and are interested in investing in top-class

offshore funds, this is a product worth considering. Contributions invested after ten years attract a special 5.00% bonus which will reduce the fees to some extent and allow you to diversify your portfolio effectively.

Should you have any inquiry about URP by Hansard, please email us at [mail@viennacapital.jp](mailto:mail@viennacapital.jp)

## New principle guaranteed hedge fund by MAN investments–Vision

The largest hedge fund company, Man Investments has launched a new principle guaranteed hedge fund called "Vision". The principle will be guaranteed by Credit Swiss International at the maturity and the fund combines two different hedge fund strategies, AHL and RMF to maximize performance from over 120 markets worldwide. Targeted

annual return is stated as 10% with a standard deviation of 11-14%. Minimum invest amount is 20,000.00 USD or EUR.

Vision will attract conservative investors who would like to secure their principle.
